MEMORANDUM FOR: Project Director

THROUGH : Deputy Project Director

SUBJECT : Requirement for Systems IV Personnel, Detachment "B"

1. In the staff meeting earlier this week, the Project Director mentioned that the present plans were for stationing two Systems IV pieces of equipment at Adana and, at the same time, eliminating the use of this System at Atsugi.

2. Our personnel planning with Ramo-Wooldridge for staffing out Systems IV has been based on a two-base concept and it is my understanding that Ramo-Wooldridge has hired people to service Systems IV on this basis; i.e., ties in the number of personnel required to support two pieces of equipment at one installation.

3. Is it proper to draw from this change of plans the inference that we should advise Ramo-Wooldridge of this change so that they may re-apportion their man-power requirements, or does either the Project Director or Deputy Project Director have any feelings about the wisdom of returning the personnel now surplus to Edwards AFB for testing of this rather complicated System.. In this latter context it might be well to point out, however, that the Ramo-Wooldridge personnel who had been destined to go to Atsugi were hired with the expectation that they would receive a considerable increment over any salary that would be paid to them at Edwards and, therefore, their desire to remain with the Project may be affected by financial considerations.

4. Your reactions would be appreciated.

JAMES A. CUNNINGHAM, JR.
Project Director of Administration
PS/DCI

Dear Dan:

Enclosed are the original and one signed copy of Amendment No. 2 to Contract A-103.

As you know, we have still not completed negotiations on the definitive contract visualized under the present letter contract. As a result, it is difficult to determine accurately the costs under this contract for the period through June 30, 1957. Under the present terms of the letter contract, we will be reimbursed for direct labor dollars as incurred and burden rates to be retroactively revised to reflect actual changes in costs. On this basis and using our present assumptions about overhead rates for the year, the total cost of the work through June 30, 1957 will be about [REDACTED]. However, this amount will be changed by any man-month fixed price we may negotiate in the definitive contract so it is not possible to determine at this point the exact amount of funding which will be required for the period through 30 June 1957. It is probable that costs will be greater than the [REDACTED] allotted in the contract.

You have asked us to advise you of the portion of this cost applicable to Harry's work. The direct labor dollars chargeable to him are [REDACTED] and at the estimated burden rates for the period, this will amount to about [REDACTED]. This is of course subject to the same uncertainties of final determination as are set forth in the preceding paragraph.

We estimate the total costs under A-103 for the period 1 July - 31 December 1957 to be [REDACTED]. However, this amount will vary depending upon the portion of Harry's field services which is charged to this contract. The funding provided in Amendment No. 2 is certainly adequate to cover us for the next few months.

Sincerely,

Bob
